## STRUT

S2SD

#### PRODUCT DESCRIPTION

Installed anywhere along the channel or side by side in pairs, Stealth Downlights provide clear, task illumination with virtually no glare. Finish options complement other elements in your STRUT array, and field changeable optics and trims add another level of design customization.

#### FEATURES

- Driver concealed within the fixture
- Low glare trim with 60° cutoff angle
- Interchangeable trim available in 4 finishes
- May be installed side by side or at end of STRUT channel
- Stealth Downlight may be installed in corners or at the end of channel.
- To enable access to STRUT element releasing tabs, maintain at least 3" of free channel space

#### SPECIFICATIONS

|                  |                                                            |
|------------------|------------------------------------------------------------|
| Rated Life       | 50,000 Hours                                               |
| Standards        | UL, cUL, Dry Location Listed, Title 24 JA8: 2019 Compliant |
| Input            | 48 VDC                                                     |
| Dimming          | ELV, 0-10V, TRIAC, WAC Home*                               |
| Mounting Details | Installs magnetically and mechanically into STRUT system   |
| Color Temp       | 3000K, 3500K, 4000K, 2700K                                 |
| CRI              | 90                                                         |
| Construction     | Die-cast aluminum with injection molded low glare trim     |
