Fan Stabilizer

F-STBLZ

PRODUCT DESCRIPTION

Engineered for unwavering performance, the Fan Stabilizer delivers exceptional stability and is tested to Level 12 on the Beaufort Scale, simulating hurricane-force winds. By reinforcing the connection between fan and structure, it minimizes movement and vibration for smooth, confident operation.

FEATURES

- Patent-pending fan stabilizer accessory engineered to deliver greater outdoor reliability and long-term performance.
- Locks the hanger ball to eliminate sway and vibration.
- Ensures steady operation in coastal and high-wind areas.
- Engineered to withstand high winds: Passed a Level 12 Beaufort test (74–83 mph).
